

LOW MAINTENANCE LANDSCAPE inc.

2025 LANDSCAPE MAINTENANCE CONTRACT for _____

We specialize in offering knowledgeable landscape and garden maintenance services to homeowners and small commercial buildings! We provide custom service for many different landscape situations. Many of our customers already have a beautiful, well-maintained landscape and need an expert horticulturist to provide on-going maintenance and monitoring for problems. Some of our new customers have an overgrown landscape in desperate need of a complete clean-up and pruning. Others wish their yard looked nice but don't know what to do or where to start.

Your landscape is a valuable part of your home investment. Did you know that an attractive, well-designed and maintained landscape raises the value of your property by 10 to 15%? Let our professionals with a degree in landscape architecture and horticulture with over 20 years of experience take care of these needs for you! We take pride in operating a small, locally owned business. Offering the best customer service and personal care is our top priority! We work with your needs and your budget with 2 different service plans. Our crews of trained horticulturists determine what tasks need to be done for each visit. See complete list of maintenance tasks we offer on reverse side of sheet.

We cannot give estimates due to variability of each property, time of year, and how much of the work you do ahead of us. We can, however, give estimates for spring mulch. Our hourly rate in **2025 is \$76.00** per man-hour. (this rate is subject to yearly increases) Our crew size may vary from 1-5 depending on task. We offer an "automatic" service and will show up without you having to call us. Due to weather conditions and not knowing how long each job will take, we usually do not schedule maintenance visits in advance unless absolutely critical.

Low Maintenance Landscape handles a variety of detailed horticulturally oriented tasks that are best left for our professionals. This includes bed cleanups, leaf clean-ups, shrub / low-branch tree pruning, dead plant removal, plant replacements, perennial maintenance, dividing, weed control and prevention, fertilization, mulching, etc. Low Maintenance Landscape's company policy is to solve a problem with an organic approach first when it comes to pest control. If not successful, we will recommend a pest control company to solve the problem (such as Bagworms). Normally, we bill for products used in your yard in addition to the hourly fee. These items will be billed at the current retail price. Debris/ haul off will be billed unless you have an on-site compost site for recycling. On warranty plant replacements, the actual plant cost is free and you are only billed for the planting labor. We cannot be held responsible for injuries or property damage to others resulting from the actual maintenance work on your property. We will, however, be responsible for any property damage caused by our employees and any personal injury to our employees. You agree to be financially responsible for dog inflicted injuries to employees and post a warning sign on your fence if you own a dangerous dog. Our employees are not allowed to enter a back yard if an unsupervised dog is present. Please let us know if your dogs are kept outside if you are not home or if we need to schedule a time for access. Please clean up dog poop before we visit or we cannot offer service to that area. We may be able to recommend a company for that if you need.

Please sign and return this contract to get on our schedule. We will track our time and materials for each visit. After each visit, a bill will be emailed to you and will be due within 15 days. Your prompt payment is appreciated. Beginning on the 30th day, a late charge of \$5 per month will apply. Past-due accounts will lose scheduling priority and go to collections. Your contract will automatically renew each year. Either party may cancel or change this contract at any time without penalty. To cancel this contract before end of coverage period, you must notify Low Maintenance Landscape in writing and 7-10 days in advance and pay all outstanding invoices.

Please circle one of the following maintenance service plans below. Please call us if you need help deciding on a plan.

- **MONTHLY (8-10X PER YEAR);** Great for medium to large residential and most commercial. Also recommended for detailed plantings, forested areas, poorly mulched areas, landscapes prone to frequent weed problems and landscapes with irrigation systems. Great if you prefer to do very little of the work yourself. Monthly visits can also keep your bills low and keep things in top shape because the work load is lower each time. Weeds also find it more difficult to establish with frequent visits.
- **BI-MONTHLY (4-6X PER YEAR);** Great for small to medium residential landscapes that have moderate to low maintenance needs. This is recommended if you do some of the work yourself, mostly including some weeding and minor clean-up in-between visits.
- **QUARTERLY (3-4X PER YEAR);** Great for medium to small residential landscapes. With this plan, you will need to do some of the work yourself (occasional weeding, pruning, clean-up, ect) . This is a great plan if you want us to do the major pruning and cutting back perennials with our power equipment. We always call first with this plan.

Coverage period: Jan, 1st, 20____ thru Dec 31st, 20____ **Plan Auto-renews each year unless you cancel.**
Choose a service plan: circle one: Monthly (8-10x per year), OR Bi-Monthly (-4-6x per year), OR Quarterly 3-4x per year
Would you like to be notified via text prior to maintenance visits?: circle one YES or NO
Organic Debris; Are we able to recycle debris in on-site compost bin or pile: circle one: YES or NO

OPTIONAL SERVICES AVAILABLE; Fall leaf clean-up in lawns (ask for estimate): circle one: YES or NO
(TO ADD TO YOUR REGULAR PLAN) Spring mulch service (ask for estimate): circle one: YES or NO

You agree to all terms discussed in this contract. (we cannot offer service if you circle "NO") YES or NO
